Subject: Re: OR CZARA Pesticide Rationale and RTC

Hi Scott--

I just wanted to remind you that if you have any comments on our write up for the pesticides section, please let me know by today. If you need a few extra days, please make sure you share your comments with my as well as Jenny Wu at EPA (cc'ed above). I'll actually be out of the office Nov. 7-14th so want to make sure Jenny will have your comments before I get back. Jenny is with EPA's water program and has been the lead for the pesticides section of our Oregon CZARA decision.

If you have any questions, I'll be around today.

Thanks,
Allison

Hi Scott--

Thanks again for all of your assistance in understanding the Pacific NW BiOps, etc. I wanted to share with you our draft rationale for the pesticide section of our decision on OR's CZARA program as well as our response to comments. I've highlighted a few sections that specifically reference NMFS.

If you have a chance to review to make sure the info is accurate and doesn't contradict anything NMFS is working towards, that would be much appreciated. We're also providing to Linda Liu and others in the EPA Pesticides Office in R10 to review as well.

Any feedback you have by Nov. 6th would be much appreciated. If you have any questions, feel free to give me a call.

Thanks again,
Allison
